Testimonial for BuildAid Consulting

To whom it may concern

I have worked with Martin and the Build Aid team for nearly 15 years on various projects and have always experienced them to be professional, informed and timeous in meeting often very pressing deadlines.

I have also appreciated their flexibility in terms of fulfilling different client requirements, from domestic to commercial and public service projects.

Their accurate and realistic estimates have assisted us and our clients in formulating and managing budgets, assessing quotations, and managing expenditure.

I would not hesitate in recommending their services wholeheartedly.

Yours sincerely

Sylvie Vantillard Pr Arch
